## Interested in marine stakeholder engagement?

Join us for a virtual marine ecosystem stakeholder engagement workshop

---

We are seeking several graduate or postdoc students to join a stakeholder engagement workshop. This workshop will bring together diverse coastal groups to discuss the future of marine ecosystem monitoring in California. This workshop is great for individuals wanting to learn more about stakeholder engagement across various policy levels.

**February 9-10 | 9am - 12pm PST**

---

### What you get

Meet participants from tribal governments, federal, state, local, and NGO entities.

Watch stakeholder engagement in action.

An honorarium for your participation and time.

### What we need

You will be asked to help take notes during the workshop.

General knowledge on marine ecosystems (biological, physical, or chemical) is required.

Apply by January 19, 2022
